Shape Confidence Innovate the Future

NCL-AG200A

DENTAL VERTICAL GRINDER

High efficiency

Large-size

Stable & reliable

AG200A

01 Equipment Introduction

- **High efficiency**
Adopts vertical spindle end-face grinding method with high efficiency.
- **Large-size**
Bowl-shaped grinding wheels with a maximum outer diameter of 220MM.
- **Highly stable**
Simplified motion structure, offering high equipment stability.

02 Technical Parameters

Item	Parameter
Finishing size	200*200mm
Feed Rate	0.005-0.01mm
Spindle shaft	2,800r/min
Grinding wheel	Φ220 bowl-shaped grinding wheel
Operation mode	Automatic grinding
Power supply	380V.50Hz
Motor power	2.2KW
Equipment size	700*1,150*1,850mm
Equipment weight	800KG
